

Triumph America

- Traditionally British 865cc parallel-twin engine
- Classic cruiser styling
- Wide range of official accessories available to create an individual look
- Standard two-year unlimited mileage warranty

The 865cc Triumph America offers the most accessible entry point into Triumph's cruiser range, delivering an authentic cruising experience but with a distinctive Triumph twist to set it apart from the masses of "me too" V-twin cruiser clones.

The America's styling is classic laid-back cruiser, with the 16" front and 15" rear cast alloy wheels sporting high-walled tires to complement the deeply valanced front fender, pulled-back handlebars and feet-forward controls for a traditional low and laid-back cruiser look.

Low means a 27.1" seat height and an easy-to-manage 550 lb. wet weight, fully fueled and ready to ride. Triumph's engineers have deliberately designed the America to appeal to a wide range of riders. Neat touches such as the easily accessible sidestand and friendly ergonomics make it no wonder the America attracts such a wide variety of riders searching for a cool-looking yet fun and easy-to-ride motorcycle.

Metallic Phantom Black or two-tone Caribbean Blue with Crystal White paint schemes give the America a timeless, understated style, while liberal lashings of high-quality chrome further enhance the America's appeal and help deliver a beautifully balanced design.

And the twist? Triumph's classic parallel-twin power plant provides a unique proposition in a sea of V-twins. This quintessentially British configuration sets the America apart from the competition and delivers a distinctive look and riding experience.

With a 270-degree firing order, the America delivers a healthy 60bhp with a mellow soundtrack and connected feeling. And the air-cooled engine is totally modern, too, with fuel injection for clean running and low maintenance.

A full range of genuine Triumph accessories is available for the America and includes items such as quick-release screens and sissy bars, luggage, a low seat option and a number of leather and chrome items for riders who want to make their America their own.
