

Triumph Speedmaster

- Traditional stripped-down custom styling
- Low seat and light weight for easy riding experience
- 19" cast front wheel with single disc to enhance aggressive design
- Authentic British parallel-twin brings unique experience to cruiser sector
- Two-year unlimited mileage warranty

Stripped down and laid bare, the Triumph Speedmaster is a small cruiser that makes a big statement.

At the heart of the Speedmaster is Triumph's revered 865cc parallel-twin engine, a classic configuration favored by custom builders around the world. With its 270-degree firing order and twin slash-cut pipes, the fuel-injected unit delivers a peppy 60bhp and 53 lb-ft. of torque with a satisfying growl befitting the sporting looks.

The look of this sports cruiser is dominated by the 19" cast aluminium front wheel with single disc brake and "skinny" tire, giving a classic, chopped hot rod look. As you would expect, the Speedmaster sports a low 27.1" seat height which, when married to the wide handlebars, delivers a comfortable and intuitive riding position.

To complete the back-to-basics street rod look, the Speedmaster sports blacked-out engine cases, a carefully crafted teardrop tank, minimalist fenders, a 15" cast rear wheel with a high-profile tire and a small, chrome single-headlight design.

Two color options are available for the Speedmaster: classic metallic Phantom Black and vibrant Cranberry Red.

A full range of genuine Triumph accessories is available to accompany the Speedmaster, including a range of saddlebags, screens and alternative seats to meet the preferences of the individual rider.
